SELIM BEN BOUZID

+33 760388813 ◇ benbouzid.selim@gmail.com ◇ linkedin.com/in/selim-ben-bouzid

CS Engineer with an great international experience and strong software engineering skills.

WORK EXPERIENCE

Software Engineer Intern: *Microsoft* Dublin, Ireland   June 2025 - September 2025
Led the development of a new upsell page in the Office redemption flow (React, TypeScript, C#, .NET) used daily by hundreds of thousands of users worldwide. Handled full-stack implementation, UX integration, and service-layer logic. Owned all cross-functional communication: legal reviews, privacy compliance, UX validation, and product alignment. Pushed code to production, contributing to improved conversion and user engagement.

Software Engineer Intern: *Wevioo* Tunis, Tunisia   July 2024
Built a reusable front-end component library in Bootstrap to standardize and speed up landing page creation in Joget (low-code platform). Delivered production-ready and reusable code that helped improve the page productivity of a 15 person team by 30%.

EDUCATION

Computer Science Engineering   2023 - Present
INSA Lyon, France, GPA: 4.0/4
Software Engineering Master - Semester abroad   2024
FIME UANL, Monterrey, Mexico: 92%
Engineering Preparatory Classes   2021 - 2023
INSA Lyon, France, GPA: 4.0/4

CO-CURRICULAR ACTIVITIES

Junior Entreprise Project   July 2024 - March 2025
Built a no-code management system with Bubble for Epnak Centers, handling workflows and internal process automation. To be deployed for 2,000+ agents and 6,000+ patients.

Academic Support for underprivileged pupils   2023 - 2024
Studying sessions organized by my college and high schools to mentor students and help them in scientific subjects. Helped 30 students reach their goals and get into their wanted universities.

Member of the student association's IT team   September 2022 - December 2022
Developed and maintained internal apps and websites for over 60 student associations. Built and supported web platforms to manage large-scale events with around 2,000 attendees. Also contributed to managing and maintaining the IT infrastructure of the associations.

PORTFOLIO

Portfolio link: seloum-lab.github.io/Portfolio   **Github link:** github.com/Seloum-lab

SKILLS

Languages: C, C++, C#, Python, Java, TypeScript, Assembly, Bash, Cuda
Web: React, HTML/CSS, Tailwind, Node.js, Express.js, REST
Databases: PL/SQL, Oracle, MongoDB, Relational DB, ORM tools
Tools: Git, CI/CD, Linux, Docker
Concepts: Algorithms, Data Structures, Operating Systems, OOP, Thread and/or GPU Programming, Cyber-Security (threat detection, network security management), Testing(formal and informal)

LANGUAGES

English: fluent   **French**: native   **Spanish**: fluent   **Arabic**: native
